2021— Present	Computer Engineering, Boğaziçi University	İstanbul
---------------	---	----------

LANGUAGES	English	Highly proficient	Spanish	Beginner
-----------	---------	-------------------	---------	----------

EXPERIENCE

- | | |
|--|---|
| Doping Technology
Summer Intern
June-August 2023 | <ul style="list-style-type: none">Developed a REST API using a pre-trained BERT model to classify customer issues.Contributed to Türkiye's first big chatbot agent project: Dopi AI. Implemented prompt engineering techniques in the process and made research on both open source and closed source models. Carried out project development and competition analysis.Took part in creating No-Code App Development education content. |
| Fimple
Summer Intern
June-August 2024 | <ul style="list-style-type: none">Prioritized local open-source language models to address privacy concerns. Developed a local chatbot agent enhanced with RAG techniques for the purpose of serving developers using document-based knowledge retrieval.Partially developed and conducted in-depth research on natural language to SQL query language models aimed at empowering banking personnel with limited technical expertise. |

PROFILES

Huggingface	@barathanasln	Work On Various Language & Image Models, Synthetic Data Creation
Kaggle	@barathanaslan	Competitions, Dataset Creation, ML Models
Github	@barathanaslan	Internship Projects & Side Projects

CERTIFICATIONS AND COURSES

- ANBEAN Finans ve Yatırım Okulu
- Supervised Machine Learning, DeepLearning.AI
- Advanced Learning Algorithms, DeepLearning.AI
- Unsupervised Learning, DeepLearning.AI
- Neural Networks and Deep Learning, DeepLearning.AI

ATTENDED EVENTS

- Datathon AI 2024 - İtu AI Club: 1st place
 - Ranked 1st out of 91 teams in the qualification round, and 1st out of 30 finalist teams
- T3 AI Hackathon - Teknofest 2024: Eliminated during team evaluation
 - Created the highest-quality synthetic Turkish LLM dataset available
- AWS Community Day Türkiye 2024
- On-Site visit to TUSAŞ, BIST
